Dear Parents and Carers,

Over the past few weeks, we have had a number of friendship issues brought to our attention, mainly originating from online discussions and messages amongst the children in Year 5 and Year 6, that are then spilling into school and affecting curriculum time.

Please can you regularly check your child's phone and any other electronic devices they may have. It is important for parents and carers to be aware of their child's online interactions and to have open and honest conversations about their digital experiences. By staying involved in your child's online world, you can better support them in navigating the challenges they may face and guide them in making responsible choices.

We understand that technology is an integral part of our lives and it plays a very significant role in the lives of our children as well. However, it is essential that we work together to ensure that the digital space is used positively and that our children understand the impact of their words and actions online.

If you come across any concerning messages or behaviours, we encourage you to discuss them with your child and, if necessary, reach out to school for additional support. Our teachers and staff are here to assist in fostering a positive school culture and addressing any challenges that may arise.

By working together as a school community, we can create an environment where our children feel safe, supported and equipped with the skills they need to navigate the complexities of friendship and communication in today's digital age.

Yours sincerely

N Drake
